PROGRAMMING EXPERIENCE

Encora Technologies Inc.

Senior Frontend Developer

Rochelle Park, NJ

Dec 2020 – February 2023

- Led a team to implement the frontend on LG's headless CMS ecommerce website for LG employees and partners
- Mentored junior developers on best frontend development guidelines for HTML, CSS and JavaScript
- Led a team of three mid-level engineers to integrate Avon's frontend checkout flow with Cybersource's payment processor, allowing Avon to meet PCI security standards for their website

Encora Technologies Inc.

Frontend Developer

Rochelle Park, NJ

Jan 2018 – Dec 2020

- Utilized HTML, CSS, and JavaScript to design and implement user interfaces
- Provide proficiency and guidance on front-end libraries such as React
- Performed usability research, ensured compatibility, and optimize performance to increase conversions on ecommerce solutions for brands such as 1800flowers

PROGRAMMING PROJECTS

Notes App

Full-Stack iOS Notes app clone using NextJS, Typescript, GraphQL and MongoDB

Flashcards App

Single page application built with React and Ruby on Rails with a SQLite database

HerbHub

- Aggregation website for listing all marijuana dispensary products available in New Jersey dispensaries with the ability for users to sort products by dispensary location, product brand, etc.
- Frontend built with NextJS, Typescript, Mantine UI, React Query and Prisma
- Utilizes AWS Lambda, AWS Step Functions and AWS EventBridge scheduler for running Puppeteer web crawlers to retrieve product information from each NJ dispensary website and save it to a MongoDB database on a daily basis

ADDITIONAL INFORMATION

Other Experience: Sales and Service Intern at New York Jets, Certified Pet Therapist at Veterans Home
